

## History

Our main focus will be an history enquiry investigating how toys have changed over the past 2 generations.

## Literacy

We will continue to develop our phonic skills. We will also be applying our skills using describing words, in new contexts.

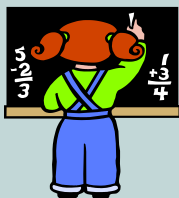

As part of our talk for writing learning we will be learning how to write facts and invitations.

We will also continue to use our Free writing books during COOL time where we can show our Kinetic letters and red word knowledge.

## Maths

We will continue with our learning on calculating by addition & subtraction. We will be encouraged to make choices as to the best resources to use to solve calculation problems. This will be underpinned by learning about the values of digits in 2 digit numbers. We will also be measuring the length & height of objects using a variety of measures.

## PHSE

Our work in PSHE will be focussing on positive friendships, including recognising what we are good at and what our friends are good at. We will be developing collaboration and teamwork skills.

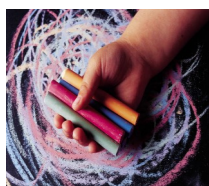

Our learning powers focus will be based around the character "Segar". This character will model what to do when our learning is tricky and how to manage distractions to our learning.

To celebrate our Toys History topic we will be having a parent event to allow children to share and experience old and new toys. We will writing our own invitations to show our cross curricular writing skills. Further details to follow soon.

## Art

We will be experimenting with tones, tints and shades of colour - using a variety of media.

Our learning in Year 1 will be focused around the topic of **Toy Story**

## Science

In our science learning we will be investigating materials through the context of toys. We will also be using the forest area to look at seasonal changes.

## Computing

We will be focusing on programming toys, e-safety and coding. We will learn how to input instructions to move characters around the screen.

R.E. will focus on messengers. We will be learning about the significance Angels as religious symbols. We will explore Christian beliefs about the story of Christmas and discuss how this festival is celebrated around the world. We will be visiting our local church St Marys as part of our RE topic.

## PE

Our focus will be dance—using our bodies expressively based on different themes e.g. fireworks and gym - performing a sequence of linked actions with balance and safety.

## Music

We will be using our voices expressively and creatively by singing songs and speaking chants and rhymes. This will help with our Nativity performance at the church.
