

Year 1 Topic Planner-Deep Dark Woods

Autumn 1 2021

Our focus for this term will be getting to know our new surroundings and adults to help us feel safe, settled and ready to learn. We will be further developing our independence and build on the foundation of skills from our Year R experience.

We will continue our phonics learning through daily RWInc. sessions to help with our reading and writing skills. We will be continuing our Kinetic Letters handwriting practise.

We will be using adjectives to describe characters from a range of texts including Julia Donaldson books. We will also be innovating the story A Dark, Dark Tale.

Our maths learning will be based upon developing a solid understanding of the number system, place value and calculation strategies for addition and subtraction. We will be learning to use maths resources independently to solve problems.

In DT we are practising careful cutting with scissors and learning how to join materials using glue, split pins and tape.

This half term Year 1 will be learning through the topic Deep Dark Woods.

In Science we will be learning about the five senses and when we use them, and labelling them on our bodies.

We will be revisiting Respector's values such as how to look after our school and how to listen carefully.

In Art we will focus on using art resources independently to explore colour mixing. We will use our observational painting to create careful representations of ourselves in a self-portrait and drawing natural objects.

In Geography we will be learning to follow maps to explore our school outside environment. We will then be comparing another town to see its differences to Gosport.

In Computing we will be learning about how to take a good photograph through first thinking, better thinking when taking a 'selfie' using an iPad. We will also be learning how to use devices that can access the internet and how we can stay safe when we use them.

In R.E. we will be learning about Harvest celebrations and encouraging respect and tolerance of the views of others.

PSHE- Jigsaw

Our Jigsaw learning this half term is *Being me in my world*. We will explore topics such as feeling special and safe, our new class, rights and responsibilities, rewards and feeling proud and consequences.

We will be creating sounds using un-tuned instruments to accompany our literacy learning.

In P.E we will be challenging ourselves to develop our ball skills. We will include partner games to develop co-operation and turn taking skills. In gym, we will focus on holding controlled balances on a variety of body parts and linking jumps, balances and travelling to create simple sequences.

* Spiritual, moral, social and cultural development
