

Teaching specific geographic vocabulary in every year group to support children in communicating their ideas.

Making links to the local area and our school grounds so that the curriculum feels relevant and meaningful.

Creating memorable, (ideally) 'first hand' learning experiences about geography that builds their knowledge and understanding.

Building on prior learning to embed their knowledge and understanding.

Our Geography Curriculum enables our children to shine

Teaching them to understand, develop an awareness of and respect for, the local environment, community and the wider world.

Developing a love for Geography and learning about the world, communities and culture in which we live.

Encouraging our children to want to find out more by asking questions, digging deeper and being curious - by becoming 'Geographers' through investigations.

Gomer Infant School

Geography Curriculum Intent
