Support children to become confident and fluent in their mathematical knowledge and understanding of key concepts and apply these skills to solve problems.

Enable children to calculate accurately using efficient strategies.

Promote and support resilience and perseverance in children's learning.

Encourage children to challenge themselves and to learn through their mistakes

Our Mathematics Curriculum enables our children to shine

Promote a positive attitude towards learning and the confidence to take risks.

Provide opportunities for children to solve problems, by applying known skills and facts, and using a range of efficient calculating strategies in a variety of contexts.

Support children's ability to apply reasoning to explain their thinking.
