

Year 2 Curriculum Overview - Amazing Animals

Summer 2 2023

Curriculum Intent: Our topic this half term is focused on amazing animals for the first part of the half term. We will be reading the story Meerkat Mail and writing our own postcards about our school. Then we will be having a PSHE focus on change, building up to creating a memory book about their time at Gomer Infant School for them to keep and treasure!

Literacy— We are using Top Trump cards to find out about animals and write descriptive pieces.

Towards the end of the term we will be writing our memories of our time at Gomer Infant School.

Maths— We will focus on applying our calculation skills to solve problems and we will be measuring and comparing capacity and weight of objects.

Measures

RE— We will find out about symbols and artefacts that are important to Christians and Sikhs.

Science - We will be putting together our Science knowledge to find out about habitats and how plants and animals rely on each other.

STEM— We will be continuing to use the Gomer STEM wheel to complete an investigation linked to our science learning.

DT— We will be designing, making and evaluating a picnic for the end of term celebration.

History— We will be learning about D-day and links to Gosport including a walk to Stokes Bay to look at the chocolate boxes.

Computing— We will be using branching charts to find out information.

Music— Mrs Reynolds, from Hampshire Music Service, will continue to teach the children ukulele this term. We will also be learning to perform some songs for our leavers assembly.

PE — We are practising for our sports day and learning other athletics skills such as throwing for distance, running for speed and jumping for stamina and distance.

PSHE— We will be following the Jigsaw Programme, looking closely at changes in ourselves physically and what we are capable of achieving.
